Product Portfolio

Rime Group offers high-performance refrigeration and HVAC solutions for commercial and industrial needs, including Air-Cooled Condensing Units, Evaporators, HVAC systems, and Cold Room Doors. Built with premium components and rigorously tested, our products ensure reliability, efficiency, and durability in demanding environments, from high-temperature climates to heavy-duty industrial applications. With a focus on performance, serviceability, and sustainability, we help customers improve energy efficiency, ensure consistent cooling, and support critical sectors such as cold chain, food processing, logistics, retail, and industrial storage.

Product Innovation: Integrated Electrical Box for CDU & Rack Systems

As part of our ongoing commitment to smarter refrigeration technology, Rime Group proudly launches its Integrated Electrical Box for CDU and Rack applications — combining both control and power management within a single compact panel. This new solution enhances reliability, simplifies maintenance, and provides operators with a unified, intuitive interface for complete electrical and refrigeration control.

Each configuration ensures easy service access, modular expansion, and built-in diagnostic capability, offering users an intelligent and future-ready control platform.
